01 MODEL

You sell. We build.

An IT studio usually hits one of two walls: orders without a team, or a team without orders. The partner program removes the first one completely. **You get a ready storefront, a brand with a portfolio and a production team of 35+ specialists**, and keep what you do best in your city: selling and relationships with clients. Demand exists in every city, and your costs are the package, advertising and your time: no salaries, no office, no production risk.

WHAT IS HAPPENING IN THE MARKET

The shortage of strong vendors has a well-known consequence: the market is flooded with pseudo-specialists who profit from the client's lack of knowledge. As a rule, the problems come from people with no professional education who try their hand at "vibe coding" without knowing the basics of security or how to read the final code. The result is holes in the security layers and bugs that stop the product from launching halfway through or near the end, with a contractor who does not know how to fix it. Often someone takes on a task beyond their ability hoping it will sort itself out, and the client gets promises of an imminent launch, a growing budget and a project that drags on for years and costs millions, while the same task is done in 2-3 weeks for a fraction of the price.

WHAT YOUR CLIENTS GET

We will pleasantly surprise them with the level of quality and the speed of delivery. Everything we build, we build to the highest standard: the security architecture is laid down at the planning stage, and our own AI tooling accelerates the creation of any product under the control of 35 top-category specialists.

A holding behind you. All contracts are signed with DeusCode. Orders are delivered by a holding of two companies: DeusCode and Infinity Core Technology LLC (Dubai).

01

Lead

PARTNER

A client lands on your storefront from ads, a referral or content.

02

Brief

CLIENT + AI

In their cabinet the client fills in the brief, the AI consultant guides them step by step.

03

Two estimates

DEUSCODE

A market price and timeline for the client, your price minus your margin.

04

Contract and payment

PARTNER

You sign the contract with the client, take the payment and pay us 100%.

05

Development

DEUSCODE

The holding delivers the order, statuses are visible in your admin panel.

06

Delivery

BOTH

We hand over to you after QA, you deliver to the client and switch on maintenance.

02 PACKAGES AND QUOTAS

Four packages. One catalogue.

Every package sells the entire DeusCode catalogue. The difference is margin, speed, territory and how much we invest in your launch.

	Basic DEUSCODE PARTNER	Business CO-BRAND	Business+ YOUR BRAND	VIP YOUR BRAND · REGION
Package price	\$1,990	\$3,990	\$6,900	\$30,000
Monthly fee: server, AI and updates	\$49/mo	\$149/mo	\$349/mo	\$790/mo
Quota this quarter	7 seats	6 seats	4 seats	2 seats
Margin on every order	15%	20%	25%	30%
Share of your clients' maintenance	5%	10%	15%	20%
Storefront brand	DeusCode Partner	Your brand powered by DeusCode	Fully your brand	Fully your brand
Territory exclusivity	No	No	City, 12 months	Region, 12 months
Exclusivity renewal per year	-	-	\$5,000	\$15,000
Brief estimate turnaround	48 hours	24 hours	12 hours	Dedicated manager
Storefront, AI consultants, client cabinet, admin panel	Yes	Yes	Yes	Yes
Admin roles: owner, support, sales	Yes	Yes	Yes	Yes
CRM with pipeline, tasks and branches	No	No	Yes	Yes
Advertising at our expense	No	1 month, up to \$1,000	1 month, up to \$1,000	3 months, up to \$2,000/mo
YouTube and TikTok content factory	No	No	1 month, 2 videos a day	6 months, 60 posts per platform per month
Upgrade	To Business	To Business+	To VIP	Sub-partners in the region

WHICH PACKAGE FOR WHOM

Basic to test demand in your city. **Business** for those who already sell services and want a brand with production behind it. **Business+** for a team with a manager and the ambition to be the only one in the city. **VIP** for someone taking a whole region and building a network.

DEUSCODE'S RECOMMENDATION

Choose **Business+** or **VIP** and, if needed, team up with partners: that way you lock in an entire city or region, split the territory into branches among yourselves and stay certain it remains yours for the whole exclusivity term. One package, one territory, several branches inside it.

[What the packages include →](#)
[← Menu](#)

03 WHAT EACH PACKAGE INCLUDES

A turnkey business in 1-7 days

You assemble nothing yourself. Within 1-7 days of payment you have a working storefront in your currency, a client cabinet, a request panel and an AI that answers clients at night and on weekends. Advertising starts right after launch if it is paid for or included in your package.

STOREFRONT

Website, PWA and mini app

A ready DeusCode service storefront adapted to your region: local currency, language, contacts, your brand or co-brand. deuscode.tech-grade design, green-zone speed, forms protected from spam and bots.

AI CONSULTANTS

Handle requests 24/7

An AI consultant trained on the catalogue, prices and sales technique runs on the website and in the mini app. It answers questions, qualifies the lead and walks it to a completed brief while you sleep.

CLIENT CABINET

Registration, brief, chat

The client registers, fills in the technical brief in a step-by-step builder and talks to your manager right inside the cabinet. Message history and documents in one place.

PARTNER ADMIN PANEL

Every request and reply

Requests, order statuses, DeusCode estimates, client conversations. Owner, support and sales roles in every package; in Business+ and VIP the admin panel includes a CRM with pipeline, tasks and branches.

INFRASTRUCTURE

Hosting, SSL certificate and domain: the first month is in the package price, after that covered by the monthly fee. Every zone except .ru and .pф we register and set up ourselves. The .ru and .pф zones the partner verifies via Gosuslugi (the Russian state services portal), then we connect them.

TRAINING AND SCRIPTS

A course on selling IT services, scripts for every line, objection handling and proposal templates. Business+ and VIP get live sessions and a review of their first deals.

DOCUMENTS

The partner agreement, a mirror client contract, a brand licence, the exclusivity and upgrade regulations. Everything in Russian and English, other languages on request.

04 TECHNICAL SPECIFICATION

What you get, technically

The partner storefront is not a template but the same engine as deuscode.tech, on your own virtual server: your own design to our standards, the same speed, the same AI. DeusCode curates the server and the code, the partner works through the admin panel.

HOSTING

Sized to the package load. Example for Russia: Beget, data centres in Russia, personal data under Federal Law 152. For other regions we select a VPS to fit local jurisdiction and personal-data rules: GDPR, PDPL and others. Docker, Nginx and auto-renewing SSL everywhere.

DOMAIN

Every zone except .ru and .pf we register and set up ourselves. The .ru and .pf zones the partner verifies via Gosuslugi, then we connect them.

APPLICATION

Next.js 16, TypeScript, Tailwind v4. The same engine as deuscode.tech: 3D, animations, green-zone Core Web Vitals.

DATA AND LANGUAGES

PostgreSQL and Redis, files in S3. Daily backups kept for 30 days, encryption. 7 interface languages, local currency with a live USD rate.

DESIGN

Not a copy of deuscode.tech but your own design to DeusCode standards: Awwwards level in every package. Awwwards is an international jury of designers, and fewer than 1% of websites win the award: a unique composition for your brand, animations and 3D, precise typography, green-zone speed, flawless responsiveness.

MONITORING AND UPDATES

Sentry, uptime monitoring, logs and alerts. Storefront, AI, catalogue and prices update for every partner centrally with our release; server access stays with DeusCode, the partner gets a report on every release.

SECURITY AND PLUMBING IN EVERY PACKAGE

- ♦ The admin panel sits behind a separate protected layer: TOTP two-factor login, login attempt limits, revocable sessions, IP log.
- ♦ Role permissions enforced at the API level, not only in the interface. Audit log: who changed what and when.
- ♦ Forms protected from spam and bots, rate limits, WAF rules, security headers, encryption of data in the database and backups.
- ♦ AI and payment keys are stored with us; the partner never sees or loses them.
- ♦ Our server access serves three purposes: updates, bug fixes without waiting, and strengthening the AI.

WHAT THE PARTNER CHANGES THEMSELVES

Logo, colours, contacts, texts about themselves, prices within the price floor, team and roles, ad accounts.

What only we change. The catalogue, AI engine, estimates and server side.

Domains. Every zone except .ru and .pf we register and set up turnkey. The .ru and .pf zones the partner verifies via Gosuslugi, then we connect them.

04 TECHNICAL SPECIFICATION · CONTINUED

Equipment per package and the price elsewhere

EQUIPMENT PER PACKAGE

	Basic	Business	Business+	VIP
Design	Awwwards level to DeusCode standards, own brand or co-brand	Same	Same, plus landing pages per line	Same, plus a distinct visual style for branches
Server	VPS 2 vCPU, 4 GB	VPS 4 vCPU, 8 GB	VPS 4 vCPU, 8 GB, separate database	VPS 8 vCPU, 16 GB, separate database, staging
Website	DeusCode catalogue storefront, service pages, cases, brief form	Plus partner and team page	Plus blog and landing pages per line	Plus landing pages for branches and sub-partners
PWA	Full: Android, iOS, desktop. Offline shell, push, automatic install prompt; install guide on iOS	Yes	Yes	Yes
Telegram Mini App	Storefront, brief, client cabinet, push via the bot	Yes	Yes	Plus sub-partner cabinet
AI consultant	On the website and in the mini app: trained on the catalogue, prices and sales technique, leads to a brief, qualifies the lead	Plus follow-up scenarios and repeat touches	Plus conversation analytics and manager hints	Plus consolidated regional analytics and priority support
Client cabinet	Registration, brief builder, statuses, chat with the partner's manager, documents	Yes	Plus online invoice payment	Plus a personal manager and full project history
Admin panel	Requests, replies to clients, DeusCode estimates, order statuses	Plus advertising and funnel reports	Plus CRM: pipeline, tasks, reminders	Plus branches, sub-partners, consolidated regional analytics
Roles	Owner admin, support manager, sales manager. Roles are assigned by the owner admin	Yes	Plus CRM roles	Plus branch roles
Integrations	WhatsApp, Telegram, email, Google Analytics and Yandex Metrica, brief and estimate sync with DeusCode	Plus ad accounts	Plus YouTube and TikTok for the content factory	Plus regional payment gateways and an API for sub-partners

WHAT THIS WOULD COST ELSEWHERE

The same set at a top CIS studio, including Awwwards-level design, a market estimate. A partner gets it all in 1–7 days because the platform is already built: they pay for regional setup and a subscription.

CONFIGURATION, INCLUDING AWWWARDS-LEVEL DESIGN	TIME ELSEWHERE	PRICE ELSEWHERE	PACKAGE PRICE
Basic: design, website, PWA, mini app, cabinet, admin panel with roles, AI	4–5 months	\$26,000–38 000	\$1,990
Business: plus reports and ad integrations	5–6 months	\$35,000–50 000	\$3,990
Business+: plus CRM, content integrations, online payment, landing pages per line	6–8 months	\$55,000–75 000	\$6,900
VIP: plus branches, sub-partners, gateways, staging, branch visual style	8–10 months	\$90,000–130 000	\$30,000

Traffic arrives from month one

A storefront without traffic is just a website. That is why from Business upwards we ramp up your advertising ourselves, and in Business+ and VIP we also build content channels that bring clients for free after the ads are switched off.

BASIC

Yourself or through us

Run advertising yourself or hand us the budget. Recommended budget \$1,000 a month, our setup and management fee 15%. Creatives, landing pages and analytics come from the network's shared base.

BUSINESS

First month on us

We pay for the first month of advertising, up to \$1,000. From month two you run it yourself or set a budget and hand it to us at a 15% fee. You start with a flow of leads, not an empty storefront.

BUSINESS+

Advertising plus a content factory

Everything in Business, plus we create your YouTube and TikTok channels and launch the content factory: 2 videos a day per platform for a month. Then you continue yourself or extend at \$550 a month.

VIP

Three months of ads and six months of content

An advertising package for 3 months, up to \$2,000 a month at our expense. Then yourself or hand management to us at 10% of the budget. Content factory for 6 months: 60 posts per platform every month. The region knows your brand before competitors realise what happened.

WHAT THE CONTENT FACTORY DOES

Videos about your services, cases and audits in the region's language, with SEO descriptions and links to the storefront. The same pipeline that runs the DeusCode channels.

WHAT ADVERTISING DOES

Targeted and search ads on Google, Yandex and the region's social networks, pointed at dedicated landing pages for every line. The audit as a cheap entry point, large lines as the main goal.

WHAT IS LEFT FOR YOU

Answer the leads the AI has already qualified, meet clients and sign contracts. Referrals and repeat orders start working from the second quarter.

06 HOW YOU EARN

Margin guaranteed. No ceiling.

Your income has two parts: the fixed package margin we build into every estimate, and your own markup, limited only by the skill of your sales manager.

TWO ESTIMATES PER ORDER

A price for the client and a price for you

For every brief you get two figures from us. First: the average market price and timeline you quote to the client on behalf of your representative office. Second: the price and timeline for you, minus your package margin. After 100% prepayment under our agreement with you, we start the work.

MARKUP IS UNLIMITED

Example on the Business package

Your margin is 20%, the market estimate is \$10,000. We build it for you at \$8,000. You may sell at \$12,000, \$15,000 or \$20,000 if your manager can close it. Or quote \$20,000 and negotiate down to \$15,000. Everything above \$8,000 is yours.

CLIENT CHEQUE \$10,000	BASIC 15%	BUSINESS 20%	BUSINESS+ 25%	VIP 30%
You pay DeusCode	\$8,500	\$8,000	\$7,500	\$7,000
Your earnings selling at market	\$1,500	\$2,000	\$2,500	\$3,000
Your earnings selling at \$15,000	\$6,500	\$7,000	\$7,500	\$8,000

PREPAYMENT FROM THE CLIENT

Take 100% upfront or leave your share until after delivery: your call. We recommend 100% prepayment: in IT, 80% of clients delay payment after delivery, and legal and technical sanctions have to be applied. Save your time and nerves.

SECOND ENGINE: MAINTENANCE

Technical work, stabilisation, SEO and improvements after delivery. Your share of every payment: 5% on Basic, 10% on Business, 15% on Business+, 20% on VIP. This income accumulates and does not depend on new sales.

WHOLESALE PRICE IN USD

Your price is fixed in dollars at the moment of the estimate; you sell to the client in local currency. The exchange rate between prepayment and delivery is not your concern: the amount payable to us is set on the day of the estimate.

07 CATALOGUE AND POTENTIAL

From a landing page to an exchange

You sell the entire DeusCode catalogue, including large projects. Below are benchmarks for the most in-demand lines to gauge the scale of earnings on a single order. This is part of our expertise: the full list covers web, mobile, fintech, AI, games and media platforms.

PRODUCT	PRICE	BASIC 15%	BUSINESS 20%	BUSINESS+ 25%	VIP 30%
Centralized exchange, full stack, excluding liquidity and marketing	avg. \$7,000,000	\$1,050,000	\$1,400,000	\$1,750,000	\$2,100,000
Decentralized exchange	avg. \$3,500,000	\$525,000	\$700,000	\$875,000	\$1,050,000
Ozon / WB-class marketplace	from \$100,000	\$15,000	\$20,000	\$25,000	\$30,000
Non-custodial wallet	from \$50,000	\$7,500	\$10,000	\$12,500	\$15,000
Crypto exchanger	from \$30,000	\$4,500	\$6,000	\$7,500	\$9,000
Single-brand marketplace	from \$25,000	\$3,750	\$5,000	\$6,250	\$7,500
iOS and Android mobile app	from \$4,900	\$735	\$980	\$1,225	\$1,470
Corporate website	from \$1,900	\$285	\$380	\$475	\$570
Telegram Mini App	from \$990	\$149	\$198	\$248	\$297
Landing page	\$590 to \$1,000	\$90-150	\$120-200	\$150-250	\$180-300

Exchanges show the average project cost; every other line shows the starting price: configurations differ and the price grows with scope. Your own markup on top is not included. Also in the catalogue: bots, AI chats for websites, website speed-up, subscription SEO, games, social networks and streaming platforms.

LOW-TICKET LINES

Volume and flow

Audits, landing pages, bots, AI chats. Average cheque \$800, short sales cycle. Every representative office starts with these.

MID-TICKET LINES

The core of your income

Corporate websites, mini apps, mobile apps, AI calls. Average cheque \$3,000, the core of the monthly result.

LARGE LINES

Worth the effort

Marketplaces, exchangers, wallets, exchanges. One deal a quarter changes the year. Often comes from a client you built a website for.

[Signature service: the audit →](#)[← Menu](#)

08 THE NETWORK'S SIGNATURE SERVICE

The audit that opens the door

The hardest part of selling IT services is the first order from a cold client. The audit solves it: cheap, fast, with a clear result. The client hands over a website, app, mini app or software and within 1–3 days gets a report that shows them what needs fixing. You sell the fixes as the next order.

AUDIT TARGET	EXTERNAL, NO ACCESS TO THE PRODUCT	INTERNAL, SSH ACCESS WITH A TEMPORARY PASSWORD
Website or landing page	\$290	\$590
Mini app or PWA	\$390	\$790
Mobile app	\$490	\$990
Software, service, server	\$690	\$1,490

EXTERNAL AUDIT

An attacker's view

Black-box pentest per OWASP, speed and Core Web Vitals, SEO hygiene, form errors, outbound data leaks, an accessibility and mobile version check. Without a single password from the client.

INTERNAL AUDIT

With SSH access

Everything in the external audit plus a pentest with access, code and server configuration review, dependencies and their vulnerabilities, backups, access rights, logs. The client issues the temporary password and revokes it after the report.

WHAT THE CLIENT GETS

A PDF report in the format of our real pentest reports: an executive summary, a findings table with severity, remediation recommendations and a work plan with an estimate.

WHAT YOU GET

Your package margin on the audit and a ready reason for a second conversation: the report already contains a list of work with prices that the client sees with their own eyes.

WHY IT IS THE NETWORK'S SIGNATURE

No local agency delivers an OWASP-grade report in three days for \$290. You do. Every second audit turns into an order for fixes or a new product.

1–3 days

09 EARNINGS FORECAST

5, 10 or 20 clients. Counted honestly.

Low-ticket line: audits, landing pages, bots, AI chats, average cheque \$800. Mid-ticket: corporate websites, mini apps, mobile apps, AI calls, average cheque \$3,000. Mixed flow: 70% low and 30% mid, average cheque \$1,500. Large deal: marketplace, exchanger or wallet, \$27,500. Your markup and exchange sales are not included.

CLIENTS PER MONTH	LINE	TURNOVER	BASIC 15%	BUSINESS 20%	BUSINESS+ 25%	VIP 30%
5	Low-ticket	\$4,000	\$600	\$800	\$1,000	\$1,200
5	Mixed	\$7,500	\$1,125	\$1,500	\$1,875	\$2,250
5	Mid-ticket	\$15,000	\$2,250	\$3,000	\$3,750	\$4,500
10	Low-ticket	\$8,000	\$1,200	\$1,600	\$2,000	\$2,400
10	Mixed	\$15,000	\$2,250	\$3,000	\$3,750	\$4,500
10	Mid-ticket	\$30,000	\$4,500	\$6,000	\$7,500	\$9,000
20	Low-ticket	\$16,000	\$2,400	\$3,200	\$4,000	\$4,800
20	Mixed	\$30,000	\$4,500	\$6,000	\$7,500	\$9,000
20	Mid-ticket	\$60,000	\$9,000	\$12,000	\$15,000	\$18,000
One large deal	Marketplace, exchanger, wallet	\$27,500	\$4,125	\$5,500	\$6,875	\$8,250

SECOND ENGINE: MAINTENANCE

Every third client takes maintenance after delivery at an average of \$300 a month. After a year a partner with 10 clients a month has 36 clients on maintenance and \$10,800 of monthly turnover, from which they receive their package share. This income does not depend on new sales and only grows.

HOW TO READ THE TABLE

The highlighted row is a realistic start for the Business package: 10 clients a month in mixed flow bring \$3,000 of margin. Add a large deal per quarter and maintenance, and you get the annual result on the next page. The rest is in your hands: more activity, more clients.

[Your first year →](#)[← Menu](#)

10 YOUR FIRST YEAR

Where your business is in a year

Volume follows the territory and advertising support of each package: Basic 5 clients a month, Business 10, Business+ 15 with city exclusivity and the content factory, VIP 20 with a region and three months of advertising. Mixed flow; large deals: one a year on Basic, two on Business, three on Business+, four on VIP.

YEAR 1	BASIC · 5/MO	BUSINESS · 10/MO	BUSINESS+ · 15/MO	VIP · 20/MO
Order margin for the year	\$13,500	\$36,000	\$67,500	\$108,000
Maintenance share for the year	\$1,620	\$6,480	\$14,580	\$25,920
Large deals for the year	\$4,125	\$11,000	\$20,625	\$33,000
Total for the year	\$19,245	\$53,480	\$102,705	\$166,920
Minus package price	\$1,990	\$3,990	\$6,900	\$30,000
Minus monthly fees for the year	\$588	\$1,788	\$4,188	\$9,480
Net result of year one	\$16,667	\$47,702	\$91,617	\$127,440
Package payback	2 months	1 month	1 month	3 months

Months 1–3

Storefront live, advertising ramped up. The audit opens the door: in three days the client gets a report and a list of what to fix, half come back for fixes and a new website.

Months 4–6

A portfolio of delivered projects in your city, the first clients on maintenance. Referrals start bringing mid-ticket work without advertising.

Months 7–12

The storefront, reviews and content channels drive inbound flow. Maintenance gives a predictable cushion to plan year two and hire a manager.

Year 2

The maintenance base doubles, every third client returns for the next project. The first large deal usually happens here: a marketplace for the client you built a website for a year ago. Business+ upgrades to VIP, VIP adds sub-partners.

[Geography and rules →](#)
[← Menu](#)

Fair rules for the whole network

The network works while every partner is confident that their territory, leads and clients are protected. So the rules are the same for everyone and written into the agreement.

TERRITORY

City and region

Basic, Business and Business+ are available in a city with no active Business+ or VIP. If such a partner appears later, non-exclusive packages move to the nearest free regions. VIP takes a region: if it already has a Business+ or VIP, the VIP gets exact information on which city is taken and a choice of free cities instead.

EXCLUSIVITY

12 months, renewable

Business+ gets exclusivity for a city, VIP for a region, both for 12 months. Renewal for the next year: \$5,000 for a city, \$15,000 for a region. While exclusivity is active, no new representative offices open on your territory.

UPGRADES

One step up

One upgrade only, one step up, paying the difference between packages: Basic to Business, Business to Business+, Business+ to VIP. Starting from Basic you cannot reach VIP. Choose your starting package with your destination in mind.

LEADS AND CLIENTS

Assigned by date

A lead is registered in your admin panel and assigned to you by date. A dispute between two partners over one client is settled by registration. Your clients remain yours for maintenance and repeat orders.

ESTIMATES AND PRICES

A DeusCode estimate is mandatory for every brief. Selling below the wholesale price is not allowed, above it is unlimited. The price floor protects the whole network from dumping.

ACCEPTANCE AND WARRANTY

Delivery to the client only after our QA. Warranty fixes after delivery go through you under our regulations, so the client always deals with one person: you.

BRAND AND CODE

Rights to the DeusCode brand and source code stay with us; white-label is a licence for the term of the agreement. An SLA breach or dumping leads to the storefront being switched off.

From application to first leads in one week

This quarter's quota is limited to 19 representative offices. Cities and regions are assigned in order of payment, so take the first step before someone else takes your city.

01

Application

Message us on WhatsApp or Telegram and name your city or region.

02

Call

30 minutes with the founder: your market, sales experience, goals.

03

Package and territory

We check free quotas and lock in your territory.

04

Contract and payment

Partner agreement with DeusCode, package payment.

05

Storefront launch

1-7 days: website, PWA, mini app, cabinet, admin panel. Advertising starts right after launch.

06

Training

Course, scripts, documents, review of the first enquiries.

07

First leads

Advertising and content are on, the AI answers, you sell.

WHO WE ARE

DeusCode, a premium IT studio: 35+ specialists in development, AI, Web3, cybersecurity, design and QA. Founder Ilya Guznenkov, 22 years in games and development, 7+ games shipped to order. A holding with Infinity Core Technology LLC, Dubai.

WHAT YOU GET FIRST

The agreement and regulations to study on the day of the call, territory locked in on the day of payment, the storefront within 1-7 days, advertising right after launch and the first report on it a month later. We have a literal stake in your result: our income is your sales.
